

ARCHAEO-INFORMATICS 2022: CHALLENGES IN DIGITAL ARCHAEOLOGY

CORONA RESTRICTIONS AND REGULATIONS

DEAR GUESTS,

please find below some further organisational issues concerning our Archaeo-Informatics event, this time concerning restrictions and regulations in light of the on-going Corona pandemic.

As the Archaeo-Informatics Conference 2022 will be held as a hybrid event, we would like to know in advance who is planning to attend (face-to-face) in Istanbul.

As organisers of the conference, we have a social duty of care towards all participants, so that certain Corona guidelines, taken from the current guidelines of the Foreign Office of the Federal Republic of Germany and the RKI, must be taken into account.

According to the guideline "Meetings and Events at the DAI from 29.03.2022", face-to-face meetings and events with 11 or more participants in a closed room must be placed under at least 3G conditions. Participants who wish to attend on site must be either **3-G** (fully vaccinated, recovered or tested negative), **2-G** (fully vaccinated or recovered) or **2-G+** (fully vaccinated or recovered and additionally tested negative or vaccinated with booster). For the conference, there will be an opportunity for all participants to be tested prior to the event, regardless of whether they are vaccinated, recovered or unvaccinated. Please understand that we need the evidence in advance for your attendance on site.

In case of symptoms of illness, we kindly ask you to cancel your physical attendance at the conference in time and to participate online.

In addition, a medical mask (FFP 2 mask) must be worn throughout the event in all indoor rooms as well as the walking areas of the building.

In order to be able to plan further, we would like to ask you who will be attending the event in Istanbul. For this purpose, we would like to ask you to fill out the following form and send it back to a ARCHAEOINFORMATICS-REGISTRATION@DAINST.DE under the Subject "Registration Archaeo-Informatics 2022".

Personal data will be treated confidentially and will only be used in the context of the conference. After the Archaeo-Informatics Conference 2022 all personal data will be deleted.

Thank you for your understanding and cooperation.

Kind regards

The Organisation Committee Archaeo-Informatics 2022
